LEARN KEY SKILLS IN THE HOLIDAYS!

Year 9 is one of the foundation years for your HSC success, so the skills to learn now can make all the difference later. At Matrix we have the most experienced teachers working with the best, time-tested resources to help you excel.

COURSE OBJECTIVE

To help students learn essential skills in English & Math. Students will be exposed to key topics so they are confident in the material.

ENGLISH STUDENTS LEARN

Writing about Prose

✓ How to identify and use textual cohesive devices used in prose such as irony, motifs, imagery and contrast.
✓ How to use critical reading strategies to identify key information.
✓ How to evaluate author’s purpose, audience, attitude, argument within the prose text type.

MATH STUDENTS LEARN

Algebraic Products & Equations

✓ Use the distributive law to expand expressions involving parentheses.
✓ Recognise special products.
✓ Apply techniques to expand special products.
✓ Expand and simplify algebraic expressions.
✓ Solve linear equations involving parentheses and fractions

STRUCTURE

✓ 2 Lessons over 2 Days
✓ 2 Hours a Day
✓ Date: Thursday 24th & Friday 25th January 2013

ENGLISH STUDENTS RECEIVE

A booklet that contains writing templates, sample thesis statements and paragraphs, tips for academic register, structure and techniques.

MATH STUDENTS RECEIVE

A booklet containing the theory, worked examples & exercises (approximately 50 pages) on Algebraic Products & Equations.
