ARE YOU PREPARED FOR YOUR HSC EXAM?

At Matrix, we have the most experienced HSC teachers working with the best resources to help you meet your ATAR goals. We know exactly what it takes to maximise your chance of success, and will teach you the most effective examination strategies and techniques.

COURSE OBJECTIVE

This course will provide Year 12 Physics students with an intensive and interactive revision of the core topics from the HSC course in preparation for the HSC examination.

Topics covered:

✓ Space
✓ Motors and Generators
✓ Ideas to Implementation

STUDENTS LEARN

✓ To integrate knowledge, understanding and skills developed in the Physics course to solve unfamiliar problems.
✓ To analyse a variety of examination-style questions, including past trial and HSC examination questions.
✓ Problem-solving strategies.
✓ Exam techniques to maximise marks in the HSC examination.

STUDENTS RECEIVE

3 hours x 5 days of tuition from a Physics education specialist providing:

✓ Exam strategies
✓ Effective problem solving techniques
✓ Detailed explanations of problems in each topic

3 x 100 page resource booklet containing:

✓ Concise summaries of each topic
✓ More than 150 HSC exam-style questions
✓ Questions applying a variety of effective problem solving strategies

WHO SHOULD APPLY

Year 12 Physics students who need to:

✓ Revise their knowledge and understanding of core topics in the HSC Physics course.
✓ Improve their problem solving written communication skills for the HSC exam.

This course is not advised for any students who have already attended the Matrix Trial Exam Prep Course.

TEACHER PROFILE

DJ Kim

Qualifications: Bachelor of Engineering (Aerospace) UNSW

Experience:
DJ has over 15 years experience teaching Physics and Chemistry at a secondary level. He is the founder of Matrix Education, the author of the Matrix Physics program, course materials and assessments and the co-author of Matrix Chemistry program, course materials and assessments. DJ has worked with the Australian Space Research Institute (ASRI) on Design and Structural Analysis of Micro-satellites for his thesis.

Awards:
Award for Design Excellence, Warwick Slade Aeronautical Society

WHAT OUR PAST STUDENTS SAY

“Matrix’s 5 day Physic Prep Course has definitely crystallises my understanding of physics concepts, previously I had just read about the information in the textbook without really understanding how and why certain things worked. I found the teachers explanations and diagrams on the board very helpful. Thank you very much!”

- Yiling Tan, Ascham School, 2011 HSC Student
